

SUNTRIGGER //

Cinematic Post-Rock from Muenster-Germany

Label & Distribution

TIMEZONE|records

Established in 2012, the band is known for their powerful, atmospheric and entirely instrumental style. Their albums `Interstellar` (2017) and `Liquid Time` (2020) were both honored with the German Rock and Pop Award.

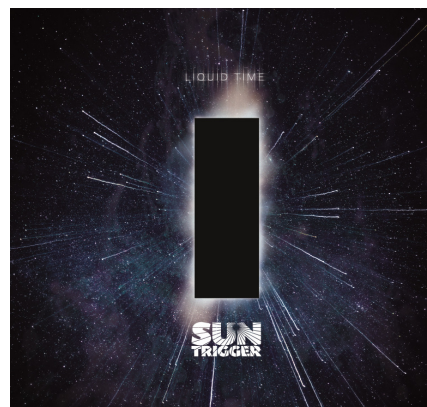

The interstellar voyage continues!

Suntriggers new album `Liquid Time` is the continuation of their debut album `Interstellar` and provides the soundtrack for another trip into deep philosophical worlds of thought.

“While we were already musically inspired by the vastness of space on our debut album `Interstellar`, `Liquid Time` deals with infinity, the relativity of time and space, the question of an extraterrestrial human future and the imagination of a timeless and all-pervading spiritual entity that ultimately manifests itself in the symbol of the monolith.”

Interstellar
release 03rd February 2017

Liquid Time
release 27th November 2020
